draft-hall-iasa20-struct-01

- An attempt at a proposed structure, far from perfect
- Points of discussion on the iasa20 list:
 - Transparency of IAO and IAO Board
 - * Can we agree to something like this?:
“Whatever doesn’t have a specific justification for being kept confidential, should be made public. There must exist a public list of confidential items, describing the nature of the information and the reason for confidentiality.” (need to take to IETF community)

- Points of discussion on the iasa20 list (cont'd.):
 - Board size, composition, compensation
 - * Size: 5 (too small?), maybe 7 (where to add?)
 - * draft-hall (5): IETF Chair, 1 ISOC Board (IAB-appointed), 1 NOMCOM-appointed, 2 Members selected by IAO Board
 - * Ted H. (10): IETF Chair, 5 ISOC Board (IAB-appointed), 3 NOMCOM-appointed, and IAO ED (*ex officio*)
 - * Compensation? Term lengths? Staggered? Management/Finance Experience? Liasons? Officers?

- Points of discussion on the iasa20 list (cont'd.):
 - Advisory Council function, existence
 - * Proposed to offer community guidance to IASA and IAO ED.
 - * Function like IAOC committees do today, but purely advisory.
 - * Size, composition, rhythms, and requirements unclear.
 - * M. Richardson: can't we just spin up WGs for this?

- Points of discussion on the iasa20 list (cont'd.):
 - What about options in non-US jurisdictions?
 - * ML attorneys recommend against: taxpayers in U.S. could not take a charitable deduction; potential limitations of ISOC financial support; may need to apply for tax exemption/follow laws of ≥ 2 countries.
 - * M. Richardson: Do any options make it easier for non-US donations?
